GmbH

# UNGER

Kabelkonfektionstechnik GmbH

In principle everything works,  
but nothing works without power!

 Guideline of the Unger Company since 1945

**Reduce your costs** of power connection and inner wiring for your appliances **up to 30 %** with the use of:

**UACS**  
**UNGER APPLIANCE CONNECTION SYSTEM**

Kabelkonfektionstechnik GmbH

**Advantages of the universal  
connection system UACS by  
Unger KKT**

## **UACS – Smart and secure connection solutions for every kind of electrical equipment with money safe guarantee:**

- ✓ High cost reduction potential up to 30 %
- ✓ Supply safety with second source guarantee
- ✓ Fully-automatic production of the connection systems at Unger locations in Europe
- ✓ Complete and certified quality control system from material purchase to the final product
- ✓ Development, application and integration support of the Unger-assembly in your equipment by the R&D department

# UNGER

Kabelkonfektionstechnik GmbH

**UACS1 by Unger KKT:**  
**The connection system for electrical appliances up to 250V, Protection class I**

The appliance coupler system UACS1 allows its users to connect all kinds of electrical appliances of the protection class I (appliances with protective earth) to each country-specific power network up to 250V.

# UNGER

Kabelkonfektionstechnik GmbH

**UACS2 by Unger KKT:**  
**The connection system for electrical appliances up to 250V, protection class II**

The appliance coupler system UACS2 allows its users to connect all kinds of electrical appliances of the protection class II (appliances without protective earth) to each country-specific power network up to 250V.
